

RStudio IDE :: CHEATSHEET

Documents and Apps

Access markdown guide at **Help > Markdown Quick Reference**
See reverse side for more on **Visual Editor**

RStudio recognizes that files named **app.R**, **server.R**, **ui.R**, and **global.R** belong to a shiny app

Package Development

Create a new package with **File > New Project > New Directory > R Package**
Enable roxygen documentation with **Tools > Project Options > Build Tools**

Roxygen guide at **Help > Roxygen Quick Reference**

See package information in the **Build Tab**

Source Editor

Tab Panes

Version Control

Debug Mode

Use **debug()**, **browser()**, or a breakpoint and execute your code to open the debugger mode.

RStudio opens plots in a dedicated **Plots** pane

RStudio opens documentation in a dedicated **Help** pane

Viewer pane displays HTML content, such as Shiny apps, RMarkdown reports, and interactive visualizations

View(<data>) opens spreadsheet like view of data set

Click next to line number to add/remove a breakpoint.

Highlighted line shows where execution has paused

View the Keyboard Shortcut Quick Reference with **Tools > Keyboard Shortcuts** or **Alt/Option + Shift + K**

Search for keyboard shortcuts with **Tools > Show Command Palette** or **Ctrl/Cmd + Shift + P**.

Posit Assistant

Posit Assistant is a data analysis assistant that connects to your live R and Python sessions, sees your data, and helps you explore, visualize, build, and debug.

CHAT FEATURES

- Drag and drop, paste, or upload files
- Reference workspace files with @

COMMANDS

Type a slash command at the start of your message to trigger special actions.

Posit Workbench

WHY POSIT WORKBENCH?

Extend the open source server with a commercial license, support, and more:

- open and run multiple R sessions at once
- tune your resources to improve performance
- administrative tools for managing user sessions
- collaborate real-time with others in shared projects
- switch easily from one version of R to a different version
- integrate with your authentication, authorization, and audit practices
- work in the RStudio IDE, JupyterLab, Jupyter Notebooks, or VS Code

Download a free 45 day evaluation at posit.co/products/enterprise/workbench/

Share Projects

File > New Project

RStudio saves the call history, workspace, and working directory associated with a project. It reloads each when you re-open a project.

Share Project with Collaborators

Run Remote Jobs

Run R on remote clusters (Kubernetes/Slurm) via the Job Launcher

Monitor launcher jobs

Launch a job

Run launcher jobs remotely
